## *Windows to the Sky*

UNITY TEMPLE VILLAGE  
KANSAS CITY, MO  
October 25 – 26  
Saturday & Sunday, 9- 5

This weekend is specifically designed for non-acupuncturists, be they body workers, energy workers, therapists, healthcare workers, or the secular. Using correct intention and finger/feel palpation of the “Windows to the Sky” acupuncture points, participants will be guided on how and when to use “Windows to the Sky” points by anatomical location, vector, pressure, energetic and appropriateness in an integrated eleven step protocol.

**Todd Welden**, NTP, CST, MH lives and practices in Aspen, Colorado. He mentors Biodynamic Touch in the U.S., Europe, and South America. His unique understanding of the scientific and visionary worlds makes him a profoundly gifted healer able to integrate ancient perennial wisdoms into modern context.

**Cost: \$225 for early registration**

**Windows to the Sky** acupuncture points are vitality-imbued with reserves of energetic, spiritual, and poetic potential for when our clients have lost their sense of Spirit within themselves; lost connection with the Divine outside of themselves; lost clarity of insight and can no longer find meaning or purpose in life.

Windows to the Sky acupuncture points are an elegant and impeccable way to invite, allow, acknowledge, support, and nurture what our clients’ hearts long and crave for – connection with Ourselves.

For centuries windows points were kept to the esoteric Chinese medical elite. We can now be of greater benefit to that appreciable number of our clients asking to regain their psychological, emotional and spiritual integrity.

These acupuncture points not only link to particular meridians but have the capacity to open us to the infinite and transpersonal aspect of Being.

This work will deepen any healer’s tool bag in furthering your understanding of the “Dream Body” or visionary work with your clients.

Clients most often report after a session as though feeling like a heavy leather jacket has been taken off to allow the transition to sunlight consciousness or oceanic consciousness. First we lighten, then we soften, then we deepen.

Associated with most of the Windows to the Sky points are symptom treatment; i.e. for sinusitis, asthma, bronchitis, chest oppression, headache, tinnitus and more.
